

What is Magicalift Thread

Magicalift is premium lifting thread made of PDO(Polydioxanone) which is absorbed after proliferating collagen by stimulating fibroblast.

These threads are placed strategically into the dermis, where it acts as a frame for lifting and tightening loose and sagging skin.

- * Re-defines facial contours
- * Lifting effect can last for up to 1.5-2 years
- * The thread will form an integral support structure for the tissue of the face due to collagen synthesis
- * The lifting effect is at its peak 6 months later when collagen has formed around the threads
